More than 40% of families in our community are working hard but can’t make ends meet. COVID-19, the economic fallout, and significant job loss have increased the number of people who need help, some for the first time. United Way helps people break down the barriers that keep them in a state of struggle and prevent them from becoming financially stable. With your support, we help people meet their immediate basic needs and achieve long-term financial stability and success.
